NURSING

SUMMER SCHOOL

Concepts, Evidence and
Interventions for
Improvements

UNIVERSITÄTS- UND
REHABILITATIONSKLINIKEN ULM

U UNIVERSITÄTS
KLINIKUM
ulm

Dear Ladies and Gentlemen,
Dear Colleagues,

We are pleased to welcome you to the 5th edition of the Summer School.

We are honored and very proud that the great Summer School will be held in Ulm again in 2025. Nursing and health care are facing major challenges – continuous improvement of processes and outcomes is essential to ensure excellent patient care. Therefore, it is essential to achieve a resilient and adaptive organization that attracts and retains highly professional and skilled nurses and midwives. This summer school covers concepts and evidence on organizational context of nursing practice and illustrates how US Magnet® principles were implemented in a global health care system.

We are looking forward to inspiring days and an unforgettable stay in Ulm, where we can share great ideas and transform healthcare together for our people, families, and for a positive future, with the knowledge from many international experts.

A warm invitation from
